#### **CARLSBAD POLICE DISPLAY RECOVERED PROPERTY**

The Carlsbad Police Department will be providing an opportunity for victims of burglary and theft to view property recovered through a series of investigations.

In the past several months, the Investigations Division has resolved burglary crimes through the arrest and prosecution of numerous subjects, resulting in the recovery of a large amount of stolen property. Some of the property recovered has been released to the rightful owners, but we are still in possession of a large quantity of items which could not be tracked back to the owner.

The suspects arrested in conjunction with this property were responsible for numerous crimes in the south Carlsbad/Encinitas area, but may have committed crimes elsewhere.

The Carlsbad Police will be showing this property at their facility between the hours of Noon and 5:00 p.m., this Saturday, February 21, 2009.

If you have been the victim of a property crime and believe that you may be able to identify some of this property, please stop by. Remember to bring identifying serial numbers, receipts, photos, etc. to assist in the property release process.

The property to be viewed includes bikes, tools, jewelry and watches, electronic games, computers and components and I-pod equipment, phones, cameras, purses, rare coins, miscellaneous knives, etc.
